

Please keep the New Jersey Do Not Call policy at least as stringent as it is now.

I feel it should also be extended to include non-profit agencies. As senior citizens it is not only annoying but dangerous especially if you are expecting a call, and rush to the telephone to answer only to find out it's someone asking for a donation. I have almost fallen coming up the steps to get to the telephone thinking it is family calling. As a senior citizen I cannot afford Caller ID.
